

## **Mystery Quilt**

Well it's here..... the final installment of our mystery quilt.

Part Six:

Cutting:

40 – 2 ½" x 12 ½" from your dark (for sashing strips)

16 – 2 ½" x 2 ½" from your light (for cornerstones)

8 - 2 ½" x width of fabric from your dark (inner border)

8 - 4 ½" x width of fabric from your light (outer border)

Using these border widths you will have an 80" x 80" quilt.

Now you have another decision to make! Using all the same components I've come up with six different ways to lay this out – there's probably more. I can't pick for you so I'll give you the pictures here so that you can pick out your own favorite. Assembly is your basic row by row (pressing toward the dark sashing) and measuring the top for your border lengths.

Part Four = July block (5)

Part Five = Sept. block (4)

I hope you've enjoyed the mystery.

Valerie
